

AC3150

A/C RECYCLING

Air Conditioning Recycling for R134a

The Fasep AC3150 is robust and practical with sleek, modern design. It was designed to manage the current gases used in vehicles (R134a & R1234yf) and it can also serve systems that work with POE oils. It is equipped with a easy to read dual line display with simple to use keypad. Operators are accompanied step by step with clear messages on the display screen.

FEATURES

- Integrated auto data base
- HP-LP ports, or only HP, or only LP
- Automatic air purge
- Electronic vacuum gauge
- Integrated solenoid valve manifold
- Expansion valve
- Refrigerant electronic scale
- 80 mm HP-LP manometers pulse free with calibration
- 50 mm refrigerant container manometer
- Oil containers with quick coupler
- Double chamber distiller
- Double filter Graphic printer with settable text & print
- Steel chassis
- Window for oil pump inspection
- 100% Made In Italy

Someone you can trust!

TECHNICAL FEATURES

• Refrigerant	R134a
• Electronic scale precision	Precision +/- 5g
• Electronic vacuum gauge	≤ 2 %
• HP LH Manometers	Kl. 1.6
• Volume of the internal container	12,4 L
• Volume of the internal container HD	27,2 L
• Refrigerant maximum amount	10 Kg
• Refrigerant maximum amount HD	25 Kg
• Compressor displacement	14cc
• Pump capacity	6 m3/h 3.5 CFM – 100 l/min
• Pump capacity HD version	13 m3/h 3.5 CFM – 226 l/min
• Filtering station	combined filter
• Weight	93 Kg
• Final pressure	0,05 mBar
• Recovery power	500 g/min
• Nominal pressure	20 Bar
• Volume of the internal container	10 kg

Measurements

• Dimensions	120x70x70 cm
• Gross weight:	90 Kg
• Net weight:	80 Kg
